

MARCH 7, 2001

YEARLY REPORT OF OPERATION FOR 2000

Medina City Council & Mayor
Medina County Commissioners

The following is the yearly report of operations of the Court as required by Sec. 1901.14 O.R.C.

The Court received new filings of 21,925 cases and terminated 21,785 cases.

This case load generated \$4,107,608.49 of disbursements. Driving under the influence of alcohol (O.M.V.I.) charges increased from 722 in 1999 to 840 in 2000.

Brunswick Mayor's Court, which is in our court's jurisdiction, had 4,888 traffic cases filed, 207 O.M.V.I. cases filed and 982 criminal cases filed for a total of 6,077 cases. Two Hundred and fifty-two of these entered not guilty pleas and were transferred to Medina Municipal Court.

Among the significant events affecting the work of the Court during the calendar year of 2000 are the following:

NEED FOR NEW BUILDING AND SECOND MUNICIPAL JUDGE

The building for the Medina Municipal Court was completed in 1983 after a fire set by a disgruntled defendant destroyed the previous location. Judge Dale H. Chase has served as Judge since 1988. There is one judge elected to serve in this position.

The jurisdiction of the Medina Municipal Court includes the City of Medina, the City of Brunswick, Spencer and Chippewa Lake Villages, and the Townships of Brunswick Hills, Chatham, Granger, Hinckley, Lafayette, Litchfield, Liverpool, Medina, Montville, Spencer and York. This area contains a population estimated to exceed 114,000 people. From 1988 through 1998, the new cases filed in this Court averaged 17,550 cases per year. During 1999 and 2000, the number of cases filed averaged 22,116 per year. This is a 25% increase over the previous decade's average caseload.

The most recently available statistics from the Ohio Supreme Court (*Ohio Courts Summary - 1999*) indicate that the average caseload for each municipal judge in Ohio is 12,681. There are 21 municipal courts in Ohio served by two judges. These courts had an average population of 107,186 and an average total caseload of 22,755, or approximately 11,377 cases per judge.

The existing facility, staff and number of judges -one- has become inadequate to meet the present needs of our current population and caseload, not to mention the reasonably expected needs of the future. A second judge and a new facility have become a necessity.

The position of a municipal judge is an elected position which must be created by the Ohio General Assembly on the recommendation of the Ohio Supreme Court. This process can only proceed when we have committed as a community to construct an adequate facility to house a second judge plus the necessary staff to handle the caseload of the court.

Right now, one full-time and two part-time magistrates share one desk in one office. There are four bailiffs sharing two desks in two offices. On crowded mornings there are people sitting on the floor in the small court lobby

because there is not enough space for everyone who is required to attend court. There is not enough parking for the people who drive to court along with space for our court staff.

There is no holding cell or secure location for prisoners. There are occasions when after the judge has sentenced someone to jail, they are kept 10 or 15 feet from the judge's office in an unsecured area until they can be transported to the jail.

Attorneys must meet with their clients in the halls or outside the building because there are no private locations available for these meetings. There is an existing need to hire new staff to deal with the increasing caseload of the court, but it is not possible to do so because there is currently no available space in which to put additional people.

Effective on January 1, 2001, the court created an additional court cost of \$10.00 per case, which will help cover a portion of the cost of a new building. This means that part of the cost for this facility will be paid for by people convicted of criminal and traffic offenses and by participants in civil cases before the court.

The existing building has served our community for 17 years. The goal for this year is to begin the design and construction process for a new court facility, perhaps combined with a new police facility, to have a building which can handle the needs of the court for the next 20 years.

PROBATION DEPARTMENT

The Probation Department continued regular operations with five probation officers: one intensive supervision officer, two general supervision officers, one pre-sentence officer and the chief probation officer. One full time and one part time secretary, assisted officers in all aspects of their duties.

Full time officers each completed forty (40) hours of American Probation and Parole Association approved training through a program sponsored by Kent State University's College of Continuing Studies. They also participated in line officer training provided through the Ohio Chief Probation Officers' Association.

During the year, 1036 people were placed on probation. 421 were for DUI convictions, and 167 were for underage alcohol violations. 166 were for drug related offenses, 69 were for domestic violence, 34 were for theft, 10 were for driving under suspension and 23 were for operating a motor vehicle after underage alcohol consumption. The remaining 146 were for various criminal convictions such as disorderly conduct, assault, resisting arrest, and domestic violence.

Five hundred thirty-seven pre-sentence interviews/reports were completed pursuant to court order. An additional 1,038 abbreviated pre-sentence reports were completed for underage alcohol, drug paraphernalia and first and second (within 6 years) DUI offenses.

The overall caseload averaged 1,162 for the year. Three probation officers held over 3,200 reporting appointments. Offenders on the caseload submitted to over 1,000 drug screens at the department's direction. One hundred ninety-six probationers completed 5,226 community service hours through the Medina County Volunteer Center.

The majority of the caseload participated in alcohol or other substance abuse counseling and/or mental health/behavior modification counseling as a condition of probation. One hundred twenty-two individuals served 6,619 days of electronically monitored home arrest.

Ninety-six individuals were charged with one or more probation violations.

The Intensive Supervision Probation program received a 98% compliance rate in its yearly audit from the Ohio Department of Rehabilitation and Correction (the single non-compliant standard pertained to circumstances beyond the probation department's control).

Plans for 2001 include the development of specialized programming for drug related and underage alcohol offenders.

COMPUTER DEVELOPMENTS

The court employs a Management Information Specialist to coordinate all technology applications. The current equipment in place consists of 5 terminals, 14 printers and 28 PC's plus the RS6000 main server. In 2000 all 28 PC's were upgraded to Windows 98 SE, Office 2000 Professional Version, and the upgraded version of Norton Antivirus.

Approximately 65% of the current forms used in the Court were converted to Word format in anticipation of the

installation of the Word Server program in 2001. Extensive research was conducted on equipment required for the expansion of the Court facility and on electronic recording of court proceedings.

The upgrade of the RS6000 main computer to the new F80 RS6000 was finalized and scheduled for installation in the first quarter of 2001. This includes upgrades to convert all the printers to network communication as well as setting up the network logons for each individual PC.

The installation of a DSL (Digital Subscriber Line) was completed allowing high-speed access to the Internet and legal services. This gives the court access to Internet legal research resources as well as e-mail. It also allowed the court to eliminate two business phone lines previously used to access the Internet and reduce charges from our local support company and the network service provider. The installation consists of a high-speed connection to Verizon as well as a DSL modem and firewall router to protect the internal network.

The court software was upgraded by the vendor with many enhancements to conform with federal, state and local laws.

New reports were written for the probation department to assist probation officers in tracking and reporting on active probationers. A digital camera was purchased along with a printer and scanner to allow images and documents to be archived on line. Digital pictures are placed in each probationer's file for positive identification.

The Management Information Specialist attended numerous meetings throughout the year designed to keep the computer system up to date with new rules and regulations. The annual Sanderson/CMI user group meeting was held in October with 18 courts attending from among 150 total users.

TECHNOLOGY DEVELOPMENTS

Video arraignments. Arraignments (initial appearances in criminal and traffic cases) are conducted by the magistrate. In 1997, the Court began conducting these proceedings via remote video link with the Medina County Jail. This continues to work well not only for security reasons but also saving police departments many man hours by not having to transport prisoners to and from the jail. Fiber optic cables connect the jail and the courthouse. The equipment is connected to a video recorder in the magistrate's courtroom so that all video arraignments are recorded. Video arraignments dramatically reduce the ultimate cost to the community. The remote video process is less disruptive to other litigants and witnesses who are waiting to appear before the magistrate for other cases. Security at the courthouse is improved because unruly defendants pose no risk to court staff or the public.

INTERNET SITE (www.medinamunicipalcourt.org)

The court's site, which debuted in 1998, continues to provide information about the court to Internet users. In 1998, the average number of "hits" per week was 64; in 1999, 103 per week; and in 2000, the average weekly access has increased to 174. Chief Magistrate Charles Lawrie maintains the content of the site and insures that it is updated on a regular basis. Through the end of 2000, the court's site has been accessed 16,920 times.

We continue to update the site and add content. Beginning in January 2000, the court began posting on the site all sentences imposed in DUI cases.

MAGISTRATES

Both Magistrate Figler and Magistrate Lawrie continue to be active members of the Ohio Association of Magistrates.

JUDICIAL SEMINARS

Judge Chase and Magistrate Lawrie taught segments of the Traffic Law seminar of the Judicial College of the Supreme Court of Ohio. The seminar focused on the recently expanded authority of magistrates, and how criminal and traffic proceedings are properly conducted. The response from the seminar participants gave both Judge Chase and Magistrate Lawrie excellent ratings. As the law changes regarding magistrates, Medina Municipal Court continues to be a model of effective use of magistrates.

Judge Chase, Magistrate Lawrie and Magistrate Figler also completed all required continuing education requirements established by the Ohio Supreme Court.

FOREIGN LANGUAGE INTERPRETING SERVICE

In the past few years, we have seen an increase in the number of criminal and traffic cases involving defendants who either do not speak English, or who need assistance in their native language in order to understand the court proceedings. When we are aware of this in advance, we arrange to have an interpreter physically present in court to translate. However, we often become aware of this need when a defendant is arrested and brought immediately to court the same day, or the defendant appears the next morning via video from the Medina County Jail. For these situations, the court has contracted with Language Line Services of Monterey, California to provide language translation for short court proceedings (about 5 to 10 minutes).

The company's interpreters are available by telephone. These preliminary proceedings are conducted in the magistrate's courtroom. A speakerphone and video recording system are all that is necessary to make a complete record of the proceedings. For longer legal proceedings, such as motion hearings or trials, the court arranges for translation services through Monarca Language Services, a Medina business.

CLERK'S OFFICE

In 2000 the records for 1999 were audited. Once again the Court had an excellent audit.

Clerk of Courts Judy L. Schwartz continues to be active in both the Northeast Ohio Municipal Court Clerk's Association where she was sworn in as President by Judge Dale H. Chase in December for the year 2001 and in the Ohio Municipal Court Clerk's Association where she was head of the committee for new clerks orientation/mentors. The Ohio Association has also started a Clerk's certification program. In order to be certified each clerk must earn 50 points by attending educational programs, seminars etc. To date Judy has earned 39 points.

The clerk's office had another very busy year training new personnel and implementing procedures as the laws continue to change. There are 8 deputy clerks and 1 chief deputy clerk. The number of clerks is the same as in 1982. The clerk's office needs additional staff, but there is no room in the building to put people.

CUSTODIAN

The Court now has a full time custodian. The building exterior has never looked better. Sidewalks are cleaned and salted by 8:00 A.M. and maintained throughout the day. The custodian has taken over ordering his own supplies, and assists with deliveries to all areas of the building. The custodian has been placed in charge of labeling all the property and keeping the property inventory up to date. The high volume of people coming through the building requires constant attention to maintain a clean facility.

COURT REPORTER

The Medina Municipal Court currently employs one court reporter who is responsible for making a verbatim record

of all proceedings held before the Judge. All proceedings are stenographically recorded by the Court Reporter and are recorded on paper as well as computer disk for storage and maintenance. There is also a log kept and maintained by the Court Reporter of all proceedings held before the Judge.

Proceedings held in front of the Magistrate are recorded electronically via videotape and the Court Reporter is responsible for the maintenance of the videotape log and the filing of all videotape proceedings.

The Court Reporter is also responsible for producing transcripts, when requested, and the preparation and filing of transcripts on appeal.

The Court Reporter is an active member of the Ohio Court Reporters Association and the National Court Reporters Association which provides information and seminars on court reporting issues and education.

BAILIFF'S OFFICE

The Court employs Chief Bailiff William Saus and three Deputy Bailiffs, Richard Leggett, Carl Meding and Curt Bell. Bailiffs are responsible for various duties and responsibilities for the court by the Ohio Revised Code and by local rule of the court. These duties included providing security and support service for all court personnel, lawyers and the general public. The bailiffs office provides routine assistance and general guidance during the court sessions and for matters such as docket management, witness protection and administering oaths during trials. The Judge can order special security for high risk cases, and the bailiff's office arranges for extra safety and security measures.

The bailiff's office also coordinates the transportation of jail inmates for court hearings, and helps coordinate the video arraignments with the Medina County jail staff. The bailiff and deputy bailiffs are responsible for preserving order and proper decorum in the courtroom.

The bailiff's office is responsible for the expeditious service of civil and criminal process for cases in our jurisdiction. The bailiff's office operates a 1996 Ford Crown Victoria "Police Model" for serving process and executing arrest warrants.

In 2000, an increased emphasis was placed on warrant enforcement. The Ohio Revised Code empowers municipal court bailiffs and deputy bailiffs to serve warrants and arrest people who fail to appear for court, or fail to pay fines and costs as ordered. Beginning in May of 2000, the court's deputy bailiff in charge of warrant enforcement was elevated from part-time to full-time employment. Between May 2000 and January 2001, the increased effort in warrant enforcement showed dramatic results. With an average of between 800 to 1,000 bench warrants active in the caseload, the extra efforts resulted in the resolution of 271 warrants, recovering \$3,737 in previously unpaid fines and costs. These efforts included special warrant details into Cuyahoga, Wayne and Summit Counties by the bailiff's office and cooperating local police agencies from those counties. The bailiff's office and the Medina County Sheriff's office continued to work together on warrant enforcement in our own county on a regular basis. The bailiff's office conducts telephone investigations and inquiries through the Law Enforcement Automated Data System (L.E.A.D.S./N.C.I.C. computer database) to help trace and apprehend people with active bench warrants from our court.

In 2000, the bailiff's office participated in the court's committee studying the court's needs for future expansion and improvement of existing facilities. Included in that study was an effort to obtain a L.E.A.D.S. terminal for exclusive use by court staff for criminal justice protocols. The bailiff's office is coordinating the necessary security measures required by the L.E.A.D.S. security and audit team and the Ohio State Highway Patrol (the designated authority responsible for the data base in Ohio). It is projected that the court will obtain a L.E.A.D.S. terminal in the coming year.

The four members of the bailiff's office participated in firearms training as required by the Ohio Peace Officer Training Academy. Other training provided by the Ohio Bailiffs & Court Officers Association and private organizations included threat assessment, urban gangs, civil and criminal process updates, "common law/militia" court activity, and Red Cross C.P.R. and first aid training. In 2000, the Chief Bailiff William Saus served as chairman of the Training Committee for the Ohio Bailiffs and Court Officers Association, and served on the Ohio Judicial College's Court Personnel Education and Training Committee, under the control of The Supreme Court of Ohio. In June of 2000, the bailiff was one of three bailiffs in the state to participate in a special two day seminar on court personnel training, covering course planning for bailiffs and probation officers professional standards and protocols. The

bailiff's office continued with efforts to implement the Ohio Judicial Conference's Court Security Standards which include premises surveillance with closed circuit television, prisoner handling and movement in the courthouse and witness protection guidelines, and other court security services which are reasonably necessary for the proper safety of the court.

ALCOHOL TREATMENT FUND AND JAIL COSTS

In 2000 the Court collected \$15,072.50 in fines for the Indigent Drivers Alcohol Treatment Act. These fines can be used to pay for long term treatment of indigent defendants. The Court also collected \$20,690.00 for Driving Under the Influence of Alcohol Jail Costs, which was paid to the Medina County Auditor. The Court disbursed to Townships, Cities, and the State of Ohio a total of \$15,625.00 under the Driving Under the Influence of Alcohol Act, which arresting agencies can use for equipment, training and enforcement of driving under the influence of alcohol laws.

DOMESTIC VIOLENCE AND OTHER CRIMINAL CASES

In 2000 there were 191 domestic violence cases filed compared to 171 in 1999, 200 in 1998 and 251 in 1997.

The domestic violence law passed by The Ohio General Assembly effective December 9, 1994, established a State policy that the "preferred course of action" in a domestic violence incident is arrest and requires county, city, village and township law enforcement agencies to have written domestic violence policies and procedures for these cases.

Underage consumption of alcohol cases increased from 114 cases in 1999 to 262 in 2000. Drug paraphernalia cases increased from 260 cases in 1999 to 496 cases in 2000.

WEDDINGS

In 2000 the Judge performed 119 weddings compared to 130 weddings in 1999, 116 weddings in 1998, 118 weddings in 1997, 125 weddings in 1996.
